

SpectraSan™ All Purpose Cleaner & Degreaser

- Concentrated multi-enzymatic power
- Environmentally safe, rapidly biodegradable
- EPA "Designed for the Environment" approved
- Fast, easy, effective and economical
- Neutral pH
- Non-toxic, non-caustic and non-flammable
- Safe around people, pets, plant life and marine life

An all-natural, planet safe, multi-enzymatic all purpose cleaner and degreaser that is 100% biodegradable and unlike other green acclaimed products, has earned the EPA's "Designed for the Environment" seal of approval. This remarkable all purpose cleaner continues to impress cleaning professionals at restaurants, schools, healthcare facilities, daycare operations, athletic and fitness centers, hotels, commercial buildings, warehouses, factories and contract cleaning services. It is non-toxic and safe to use around people, pets, plant life and marine life.

Works Like Magic

SpectraSan™ All Purpose Cleaner & Degreaser contains pure, vegetable based enzymes that actually digest grease, food waste and dirt, then convert the soil into natural elements like oxygen, hydrogen and carbon. These organic elements naturally integrate with the environment rather than polluting it. This amazing product makes quick work of even the dirtiest surfaces with just one initial application, by targeting grease, oil and organic matter and swiftly causing it to disappear. The soil simply vanishes while leaving the surface clean, dry and streak free. It's just like magic.

Versatile Applications

SpectraSan™ All Purpose Cleaner & Degreaser cleans concrete, oil stains, tile, metal surfaces, lawn mowers, shop tools, bikes, automotive parts, work benches, toys, walls, bathrooms, plastic, painted surfaces, cosmetics, fixtures, appliances, range hoods, patio furniture, BBQ grills, decks, tires, engines, soap film, crayon and a variety of other applications where petroleum types of oil and grease are a problem. Works well in a spray bottle, mop bucket and automatic spraying equipment.

Fast, Easy and Economical

SpectraSan™ All Purpose Cleaner & Degreaser is easy to use. Simply mix 1 cup (1:16 dilution) of product per 1 gallon of warm water, spray on the surface, and allow the enzymes to activate for 5 to 10 minutes so they can completely and effectively digest the hydrocarbons (soils), converting them into a water soluble liquid that evaporates into the air. For stubborn oil stains that have been embedded in concrete floors for a long period of time, you may have to repeat the cleaning process so all the enzymes can be worked into the porous surface. **SpectraSan™ All Purpose Cleaner & Degreaser** is meant for light cleaning, and no rinsing is required. For heavy soil levels, we recommend using a deck brush to scrub the surface, and once the cleaner is applied the remaining residue should be rinsed away with fresh water.
