- Rapidly biodegradable
- Hypoallergenic
- Neutral pH
- Easy and economical to use
- Non-toxic
- No chlorine bleach and no harsh chemicals
- Safe around people, pets, plant life, and marine life

**SpectraSan™ Mold & Mildew Stain Cleaner** is a proprietary enzyme blend scientifically engineered for the cleaning of mold and mildew stains, as well as the removal of the related musty odor. This proprietary, all-natural product has been assigned the EPA's "Designed for the Environment" seal of approval. This multi-enzymatic liquid penetrates mold to remove it from outdoor surfaces like wood, concrete, brick and stucco. And it works great on indoor surfaces like tile, or areas with moisture problems.

## Environmentally-Safe Solution

**SpectraSan™ Mold & Mildew Stain Cleaner** contains pure, vegetable based enzymes that rapidly biodegrade mold and mildew and convert them into natural elements like oxygen, hydrogen and carbon. These organic elements naturally integrate with the environment rather than polluting it. Here is an environmentally safe means to clean dangerous mold and mildew the easy way – *Nature's Way*.

## Versatile

**SpectraSan™ Mold & Mildew Stain Cleaner** can be used on almost any surface, hard or soft, that has mold and mildew stains: concrete, bricks, stone, wood, tile, metals, plastics, marble, granite, Plexiglas®, Corian®, wallpaper, wall vinyl, drapes, carpet, ceiling tiles, patios, decks, walkways, stucco, aluminum siding, vinyl siding and even HVAC coils and filters – any surface that is washable with water. It can be used on any surface that is not damaged by brief contact with water.

## Safe and Economical to Use

**SpectraSan™ Mold & Mildew Stain Cleaner** is safe for people, childcare environments, pets, plants and marine life. It contains natural enzymes that are among the safest cleaning agents available. The formula is non-hazardous, non-toxic and non-flammable. It contains no harsh chemicals, no chlorine, and no ammonia. Exterior surfaces can be effectively cleaned without harming plants, shrubs, flowers or marine life.

No special clothing is necessary when using **SpectraSan™ Mold & Mildew Stain Cleaner**. Unlike chlorine, ammonia or other harsh chemicals that produce strong, toxic fumes, our product is not harmful to people using the product and does not require special ventilation. However, due to the potential risk of exposure to mold and mildew, it is a good policy to wear respiratory protection while working in areas where mold is present.

**SpectraSan™ Mold & Mildew Stain Cleaner** costs only pennies to use. It's an inexpensive solution to an incredibly expensive problem. The product is available in a concentrate that can be diluted to as low as 2 ounces per gallon of water (1:64).
