

SpectraSan™ Pet Stain & Odor Eraser

- Acts within minutes to loosen and dissolve proteinaceous soils
- Stains and odors are completely loosened and dissolved
- Will not stain clothing, carpet or other water safe fabrics
- Will not produce hazardous dust or leave detergent residue behind
- It is non-toxic, non-caustic and non-acidic
- Does not contain alcohol, solvents, bleach or dangerous oxidizers

This extraordinary and environmentally safe product is perfect for use on carpet stains, pet odors and the unpleasant smells associated with nursing homes and assisted living facilities, as well as veterinarian offices and hospitals. Our multi-enzymatic, all natural product effectively eliminates odors and removes organic stains in carpet and fabric produced by children, pets and incontinent populations.

Works Like Magic

SpectraSan™ Pet Stain & Odor Eraser contains pure, vegetable based enzymes that rapidly biodegrade organic matter and convert the soils into natural elements like oxygen, hydrogen and carbon. These organic elements naturally integrate with the environment rather than polluting it, so the soils literally vanish.

Efficient, Effective and Versatile

SpectraSan™ Pet Stain & Odor Eraser was specifically formulated for the removal of protein, blood, body fluids, mucus, feces, urine, albumin, grass stains, wine, butter, milk, coffee and other animal fats and greases. It is particularly effective in eliminating the offensive odors and stains from pet urine and can effectively be used to deodorize kitty litter and pet bedding. This effective formula is the choice of many veterinary offices and kennels because it cleans and deodorizes medical equipment and instruments, glassware, plastic and metal surfaces, pet food dishes, cages and other equipment associated with veterinarian offices and hospitals.

All Natural and Safe

SpectraSan™ Pet Stain & Odor Eraser contains a proprietary blend of natural enzymes and surfactants that deep clean and deodorize carpeting, upholstery and other fabrics. The solution naturally breaks down pet stains and other organic material and, rather than pushing the stain around with soap and harsh solvents, penetrates carpeting all the way down to the padding, digesting the sources of the soil, odor and bacteria. Remarkably, it will not harm or discolor carpeting and is completely safe to use around children, pets, plant life and marine life.

Fast, Easy and Economical

SpectraSan™ Pet Stain & Odor Eraser is available in ready-to-use 32-ounce spray bottles or in a concentrated formula. For the concentrate, simply mix 8 ounces of product per gallon of warm water and let the product do the work. Each gallon of concentrate makes 32 gallons of ready-to-use solution. This proprietary enzyme formulation completely digests the organic material, so there is no place for bacteria or its odors to grow. Get the toughest pet stains and odors out the easy way—*Nature's Way*.
